CABA

The Continental Automated Buildings Association (CABA) is North America's only industry association dedicated to providing information, education and networking opportunities relating to home and building automation. www.caba.org

CABA's Mission and Goals

CABA is a not-for-profit industry association that promotes advanced technologies for the automation of homes and buildings in North America.

VISION
The knowledge-based forum for industry leaders who advance the use of technology and integrated systems in the global home and building industry.

MISSION
We are dedicated to advancing technology and integrated systems in homes and buildings, creating opportunities for our members' business activities and serving as a preferred global source of information, knowledge and networking for key stakeholders.

GOALS

1. To be recognized as the knowledge-based forum for leaders who advance the definition, development and delivery of the use of technology and integrated systems in the global home and building industry.

2. To provide members with timely and valuable information, products and services.

3. To encourage research and development in the use of technology and integrated systems in homes and buildings.

4. To represent CABA membership interests to selected external bodies.

5. To encourage creation of industry-wide interoperability of protocols and standards.

6. To maintain financial stability and seek opportunities to maximize member dues and non-dues revenue.

7. To ensure a strong, efficient and effective governance and a supportive administrative team.

IMPORTANT NOTICE ABOUT THIS DOCUMENT

Communication Planning Corp. (CPC) and Continental Automated Building Association (CABA) disclaims liability for any personal injury, property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document. CPC also makes no guarantee or warranty as to the accuracy or completeness of any information published herein.
