## PETE GRIFFIN OF RADIOSHACK JOINS CABA BOARD

November 8, 2004

CABA today announced that Pete Griffin of RadioShack has joined the organization's Board of Directors.

CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings in North America.

"CABA is very excited to announce the appointment of Pete Griffin to the Board," said Ronald J. Zimmer, President & CEO of CABA. "His experience in consumer electronics and nascent technologies will be a great asset to our organization."

Pete Griffin is the director of corporate technology for RadioShack's New Business Development Group. The NBD reports directly to the Chairman's Office of RadioShack.

His responsibilities include the identification of future technologies that impact the consumer electronic business and fit within RadioShack's business model.

Pete Griffin started his career with RadioShack over 25 years ago as director of engineering, and he has been at the forefront in developing (and introducing) such products/technologies as the personal computer, laptops, direct to home satellite, telephones, cellular phones, direct conversion pagers, and hundreds of accessories.

He currently is on the Board of Directors for MoCA and serves on other boards of standards organizations. He holds a Bachelor of Science, Master of Science, and Ph.D. (abd) in physics. His undergraduate studies were at Georgia Institute of Technology and Georgia State University. His graduate work was completed at TCU.

### About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at [www.caba.org](http://www.caba.org).
