Randy Amborn of Trane Appointed to CABA Board

November 18, 2009

The Continental Automated Buildings Association is pleased to announce the appointment of Randy Amborn from Trane commercial business to its Board of Directors.

Randy Amborn is marketing communications manager of global control systems for Trane. He has held a succession of marketing positions in his nearly 30-year career at Trane. Amborn has authored numerous articles on building system issues and trends for industry publications.

“Randy’s strong leadership skills and industry expertise make him an excellent addition to our Board,” said Ronald J. Zimmer, CABA President & CEO. “His solid experience will benefit our membership, and we’re looking forward to his contributions to our association.”

Amborn holds a bachelor’s degree from the University of Minnesota with an emphasis in communication and computer science. He did post-graduate work in business communications at the University of St. Thomas.

An in-demand jazz and rock pianist, Amborn enjoys contributing to his local community and beyond by combining music and philanthropy. He lives with his wife and teenage daughter.

“I am tremendously pleased and honored to have been selected to serve on CABA’s Board,” stated Amborn. “CABA offers the commercial and residential building industry an excellent forum to collaborate and share research, information, trends and analysis. CABA’s goals align well with the commitment of Ingersoll Rand (exemplified in our brands like Trane and Schlage) to creating and sustaining safe, comfortable and efficient environments.”

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at
