

CABA publishes "New Deal for Buildings" white paper

January 22, 2018

The Continental Automated Building Association is pleased to announce the publication of a white paper designed to facilitate the adoption of information technologies that enable a more productive indoor environment.

CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings.

The organization has published its "Creating a New Deal for Buildings" white paper and released it at a special reception on January 22 at AHR Expo 2018, which was also sponsored by Cimetrics, Inc., SkyFoundry, LLC and Anka Laboratories. The paper promotes the concept of encouraging a dialogue on how the building automation system industry can advance and deliver significantly better value to building owners, facility managers and society at large.

The intended audiences of the paper include: system vendors along with property owners, operators and managers. Other audiences include: sector industry groups, associations and other organizations involved in the intelligent building value chain.

The paper was overseen by a working group from industry and was primarily authored by Anto Budiardjo from Cimetrics, Inc. Co-authors included: David Katz from Sustainable Resources Management Inc.; Harsha Chandrashekar from Honeywell International Inc.; John Petze from SkyFoundry, LLC; Mike Welch from Fulham; Ron Bernstein from Lonmark International; and Therese Sullivan from Buildingcontext.me.

This CABA white paper can be downloaded free of charge by industry at www.caba.org/white-papers.

About CABA

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of over 330 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols, and leads cross-industry initiatives. More information is available at www.caba.org.
