

Anita Travieso of Hydro-Québec Appointed to CABA Board of Directors

January 30, 2019

The Continental Automated Buildings Association is pleased to announce the appointment of Anita Travieso from Hydro-Québec to its Board of Directors.

Ms. Travieso replaces Jocelyn Millette and is a Senior Manager currently responsible for the development and management of energy efficiency and DSM programs for all Hydro-Québec customers (residential, commercial, institutional and industrial). To support, encourage, and promote energy transition, innovation, and efficiency, she works closely with Québec's Energy Regulatory board, provincial government entities, energy consultants, and building contractors.

"I am excited to have the opportunity to represent Hydro-Québec on the CABA Board," said Ms. Travieso. "As a founding member of CABA, we know that the trade organization offers the commercial and residential building industry an excellent forum to collaborate and share research, information, trends and analysis. CABA's goals align well with our commitment to the sector and we are happy to help celebrate the organization's 30th anniversary year."

Ms. Travieso has 20+ years of experience as a leader in the energy management field and as a result is recognized for her expertise and experience. Prior to joining Hydro-Québec she held positions in the building automation field as consultant as well as a contractor. She is a certified Building Engineer and has an architecture Technologist certificate.

"I would like to take this opportunity to welcome Anita to CABA's Board," said Ronald J. Zimmer, CABA President & CEO. "Attracting someone of Anita's caliber, with her extensive sector expertise is a positive addition to our organization."

About CABA

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of nearly 400 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols and leads cross-industry initiatives. More information is available at www.caba.org.
