“RF Power Enables Smart home IoT Sensors to Go Mainstream” Special Panel Discussion (30 Minutes)

Sanjay Gupta
President & Chairman of the Board
AirFuel Alliance

Description: Radio Frequency (RF) technology offers power at a distance to eliminate the need to manually swap batteries in IoT sensors around the home. This allows IoT sensors to continue working for

years without the need for manual maintenance or drops in service due to dead or dying batteries. [CLICK HERE](#) for more information on the AirFuel Alliance.
